OH, MY ROBOT! SEX MACHINES AT QUIMBY'S

Los Angeles, CA (March 8, 2006) — **Quimby's** will host a special slideshow and reading by Timothy Archibald, author of ***Sex Machines: Photographs and Interviews*** (Process/Daniel 13, 2005) on **Friday, March 31st, 2006** at 7:00 PM. A signing will follow.

Sex Machines: Photographs and Interviews unveils an astonishing American subculture and the homespun inventors and users who propel it. Through his elegant color photographs and the words of the subjects, Timothy Archibald offers an intimate view into the bedrooms and tool sheds of ordinary Americans with extraordinary views on relationships, love and happiness.

"Hilarious, mind-blowing and weirdly inspirational, Sex Machines lifts the garage door on a secret world of suburban lust. If Popular Mechanics had done an Alfred Kinsey issue, it might have looked like this. Destined to be a classic." — Jerry Stahl, author of *I, Fatty* and *Permanent Midnight*.
