OH, MY ROBOT! SEX MACHINES PARTY AT THE MUSEUM OF SEX

Los Angeles, CA (August 28, 2005) — To celebrate the launch of Timothy Archibald's book ***Sex Machines: Photographs and Interviews*** (Process/Daniel 13, Pub date October 22, 2005), the **Museum of Sex** (233 Fifth Avenue, New York, NY 10016) will host a release party on **Thursday, November 10, 2005**, opening a one-man show of Archibald's photographs from the book.

The show will feature **20 of Archibald's 40" x 40" photographs** along with **six fully functioning sex machines** shown in the book. **Several inventors and participants featured in *Sex Machines* will also be in attendance.**

Sex Machines: Photographs and Interviews documents the ultimate in American ingenuity—the grassroots sex machine underground and the surprising folks behind it. Through Timothy Archibald's astonishing images and the words of the inventors and users, *Sex Machines* offers a never-before-seen glimpse of a growing sector of contemporary suburban and small-town American sexuality.

"Hilarious, mind-blowing and weirdly inspirational, Sex Machines lifts the garage door on a secret world of suburban lust."

— **Jerry Stahl**, author of *I, Fatty* and *Permanent Midnight*.
